The Little Book of Big Weight Loss Bernadette Fisers 2017-12-26 Food Rules meets Skinny Bitch in this fun, accessible guide to radical and sustainable weight loss—based on a set of thirty-one food and lifestyle rules for everyone sick and tired of diet failure and confused by conflicting advice and complicated regimens. Successful hair and makeup artist Bernadette Fisers had struggled with her weight for years. She tried and failed many diets, but her life took a turn when she was forced to face a harsh reality: her weight crept up to 287 pounds and she had a BMI reading of forty-two. Pre-diabetic and diagnosed as morbidly obese with a fatty liver and high blood pressure, Bernadette decided that it was the time to ditch the fad diets and take matters into her own hands to turn her life around. She began asking those she knew well—the glamorous models she worked with—learning about their healthy eating habits and their tips on staying trim. She further researched medical reports and nutrition papers until finally—by trial, error, and a lot of experimentation—she created a healthy lifestyle plan that was quick to read, easy to understand, and, most importantly, worked long term. Following her new rules, Bernadette went on to lose more than sixty-six pounds in thirty weeks. The Little Book of Big Weight Loss is for anyone who has grown tired of all the confusing, conflicting advice and complicated diet plans, inspiring and packed with invaluable tips and strategies, this guide provides a fresh, simple, can-do approach to dieting and can help you get on track to achieving your goals and losing weight long term.

El peso del aire Antoni García Porta 2001 Esta es una historia en la que conviven los fantasmas y en especial el de un padre, el del amor y el del odio, pero también la alta costura, el jazz y las coctelerías de lujo. La muerte de un hombre en vísperas de su boda y el encuentro entre su amigo y la stripper que debía actuar en su despedida de soltero mueven los hilos de una trama donde lo que más cuenta no es el devenir de los acontecimientos, sino el descubrimiento de una tela de araña que aprisiona a los personajes, unos momentos miniúmulos que les sirven de sustentación cuando el peso de lo invisible va adquiriendo importancia y densidad.

El peso del corazón Rosa Montero 2015-02-17 Contratada para resolver un caso a primera vista sencillo, la detective Bruna Husky se enfrenta a una trama de corrupción internacional que amenaza desestabilar el frágil equilibrio entre una Tierra convulsa y la dictadura religiosa de Reino de Labari. En un futuro en el que la guerra está supuestamente erradicada, Bruna lucha contrarreloj por la libertad y en defensa de la vida, mientras asimila los sentimientos contradictorios que le produce hacerse cargo de una niña pequeña. Bruna Husky es una heroína extrema y fascinante; una superviviente capaz de todo que se debate entre la fragilidad y la dureza, entre la autosuficiencia y la desesperada necesidad de cariño. Es una fiera atrapada en la cárcel de su corta vida, un tigre que va y viene ante los barrotes de su jaula “para que no se le escape el único y brevísimo instante de la salvación”, como el felino de la bella frase de Elias Canetti. El peso del corazón es un thriller humano, una historia de fantasía y ciencia ficción, un relato mítico, un cuento para adultos, una reflexión sobre la creación literaria, una metáfora sobre el peso de la vida y la oscuridad de la muerte... ¡Y una historia de amor! Rosa Montero regresa al mundo fascinante que creó en La Prisión en la lluvia y nos sorprende de nuevo con esa potencia narrativa que ha convertido a Bruna Husky en una protagonista legendaria.

Dialogue in Spanish

Dale A. Koike 2010-06-21 Dialogue in Spanish provides a strong theoretical and empirical foundation for the study of dialogue. This edited collection of twelve original studies contributes to a broad comprehension of dialogue in two general contexts: personal interactions among friends and family; and public speech, such as political debates, medical interviews, court translations and service encounters. The studies, written by authors from Canada, Mexico, Spain, the United States and Venezuela, present an in-depth look at theories and elements of dialogue such as irony, narrativity, discourse markers, coherence, conflict and expectation. Background research on dialogue grounds the articles in such areas as discourse analysis, pragmatics, philosophy, sociology, anthropology and linguistics. The book will prove useful to those who study conversational interaction, pragmatics, and discourse analysis as applied to various functions and contexts, and it will be of particular interest to researchers and students of linguistics, anthropology, sociology, philosophy, communications and education.

The Weight of Honor (Kings and Sorcerers--Book 3)

Morgan Rice 2015-07-01 "An action packed fantasy sure to please fans of Morgan Rice’s previous novels, along with fans of works such as The Inheritance Cycle by Christopher Paolini.... Fans of Young Adult Fiction will devour this latest work by Rice and beg for more." -- The Wanderer, A Literary Journal (regarding Rise of the Dragons) The #1 Bestselling series! THE WEIGHT OF HONOR is book #3 in Morgan Rice’s bestselling epic fantasy series KINGS AND SORCERERS (which begins with RISE OF THE DRAGONS, a free download!) To THE WEIGHT OF HONOR, Kyra finally meets her true father, and is shocked to discover he is not the man she expected. She embarks on a period of training which will test her stamina and her frustration, as she soon encounters the limits of her power. Unable to summon her dragons, unable to search deep within, and feeling an urgency to help in her father’s wars, Kyra doubts if she will ever become the warrior she thought she was. And when she meets a mysterious boy, more powerful than her, deep in the forest, she wonders what her future really has in store for her. Duncan must ascend the peaks of Kos with her new army and, vastly outnumbered, launch a risky invasion on the capital. If he wins, waiting behind its ancient walls, he knows, will be the old king and his nest of nobles and aristocrats, all with their own agendas, all of them as quick to betray as they are to embrace. Unifying Escalon may, indeed, be harder than freeing it, as Aleric, in Ur, must tap his unique skills in the forge to aid the resistance if they have any chance of defending against the looming Pandesian invasion. He is at a crossroads when he encounters Dierdre, the strongest girl he has ever met. The time she has a chance to make a stand against Pandesia, and as she bravely faces off, she who wonders if her father and his men will have her back this time. Alec, in Ur, must tap his unique skills in the forge to aid the resistance if they have any chance of defending against the looming Pandesian invasion. With its strong atmosphere and complex characters, THE WEIGHT OF HONOR is a sweeping saga of knights and warriors, of kings and lords, of honor and valor, of magic, destiny, monsters and dragons. It is a story of love and broken hearts, of deception, ambition and betrayal. The Politics of Giving in the Viceroyalty of Rio de la Plata
Viviana L. Grieco 2014-03-15

During the eighteenth century, a time of almost constant international warfare, European states had to borrow money to finance their military operations. Servicing public debt demanded the collection of more taxes in a newly efficient manner, resulting in the emergence of what scholars call European “tax states.” This book examines a different kind of state finance, based on voluntary donations rather than taxes. Relying on Spanish and Argentine archival research, the author analyzes the “gifts” (donativos) that residents of the Viceroyalty of Rio de la Plata, or colonial Argentina, gave to the Spanish Crown and the city council of Buenos Aires. She examines the cultural, political, constitutional, and legal practices associated with loans and donativos in comparison with the practices of other Atlantic states, emphasizing the quid pro quo offered by the crown in the form of appointments to office and other favors. Examining donors, donations, and expectations, she argues that the Spanish system achieved at the imperial level what the British empire and the French monarchy failed to accomplish.
